Hold Harmless

While staying and playing at PPS LLC we take standard safety precautions to keep your pet safe from injury, escape, and death, however, accidents may sometimes still occur, therefore; PPS LLC and/or staff will not be held liable for any accidents or death of a pet. Also PPS LLC will not be held liable for any pet that becomes ill during or after their stay. In the event of death we will make arrangements to transport the body to your vet or our on call vet.

Injury or Illness

Although all boarders have the required vaccinations, they are not always 100% effective. I understand that by boarding my pet, that there are risk of dog fights, accidents, communicable diseases, illness, nicks, scratches, pink eye, and other injuries. If your pet causes harm to another pet or person you will be responsible for all medical expenses and your pet will not be allowed back to PPS. If you're pet gets an upset stomach while boarding here from our treats or the treats/bones you provide we will feed them rice in order to help their digestive track get back to normal. If you are not OK with this procedure please mark NO on the question "can your dog have our treats", and please do not provide any special chewy treats for them while they are here.

Swimming Pool (Dog Dock)

We take every precaution to ensure your pet's health and safety while they enjoy themselves at the dog dock. Our chemicals are checked throughout the day and maintained at safety levels suitable for dogs. We have fresh water available to your pet at all times at the pool, but some pets will still drink the pool water. We spray off each pet thoroughly, and we dry their ears out after each swim session. However, I understand that some pets could be more sensitive than others and have reactions towards the chemicals. Examples include but are not limited to: Red eye, diarrhea, upset stomach, dry or itchy skin, and ear infections. These side effects are rare, but we want the parent to fully aware of these beforehand. Feel free to ask your vet if you think your dog might fall under the extra sensitive category. All dogs are subject to react differently.
